DAY 4 TASK

Project Name: ROCKET SEATER FURNITURE

Objective: Dynamic Frontend Components

Purpose:

The primary focus of Day 4 is to craft and develop dynamic frontend components that display marketplace data sourced from Sanity CMS or external APIs. This effort highlights the importance of modular design, reusability, and adopting industry-standard practices to create scalable and responsive web applications.

Tasks overview:

Step 1:

- Dynamically fetch product data from the API.
- Displayed products with their names, prices, images.
